REPLY TO
ATTN OF: SWS

17 November 1965

SUBJECT: Unidentified Flying Object Report

TO: FTD (TDEM)
Wright-Patterson AFB, Ohio

13/0001052
The attached report was received by our Information Services Office. Although the date time group of occurrence is generally compatible with the Athena firing, telephonic check with White Sands indicates that no Athena was fired on 12 November 1965. I have no idea what this might be.

UFO Report

UFO REPORT... MONDAY 11-15-65 4:45 p.m. long distant call from sante fe

[redacted] [redacted] [redacted], Camino Santander, tel. [redacted] (office)
[redacted] (home)

his buddy, hunting, [redacted], contractor
was also standing by telephone to verify his reporting facts....

FRIDAY EVENING 12 Nov '65...between 9:10 and 9:30 p.m. hunting with
partner... uppper Bull Creek, Pecos country, 5 miles S of Elk Mt.

Saw aircraft before x sighting, about 3/4 hour, traveling east to west.

Then saw object...described as egg-shaped.. ~~from~~ Object was traveling
due north from the south. He sighted over the horizon about 30 degrees..

was on a mountain side (didn't say what direction facing). heard no
sound with the sighting. ^{Object was} traveling horizontal ^{N. 20° W} 40 degree arc. lasted
about 4 seconds before leosing behind horizon. Was traveling three
times faster than jet he had seen before which he thought was B-52.

The object was dull red in color...white corona...triangular tail...
object was one inch in length.. and 5/8 inch in diameter... similar
to comet... only tail was about three times the length of oval object.

He came home and made a sketch of the object sighted..diagram of
his position etc. k and has available if we're interested. Again,
said there was no sound with sighting... also saw aircraft after
sighting... traveling from SW to NE.

Told him we had UFO officer to report his sighting to... perhaps
they might contact him for more info... that there were established
channel ^{office} to handle and investigate all UFO sightings.. Was very
pleased to know we were interested. Had been thinking about it
since sighting...didn't think it was the hound dog that misfired from
Wingate. *Also said they were not drinking!*
